Bullying Policy

Definition of bullying:

Bullying is *unwanted, aggressive behavior* between school-aged children that involves a *real or perceived* power imbalance. The behavior is *repeated*, or has the potential to be re-peated, over time. Bullying includes actions such as making threats, spreading rumors, attacking someone physically or verbally, and excluding someone from a group on purpose.

Adapted from www.StopBullying.gov

Clawson Childcare is dedicated to making our center safe for every child that attends. We take bullying accusations very seriously, and work as a group to find out information in any situation that we believe is bullying, or that is reported to us as bullying. Our primary goal is the safety of all involved in a bullying situation, and then the appropriate education of children involved. We will

work to solve these kinds of problems with positive, meaningful consequences, but if the behaviors continue after repeated instances and with parent involvement, an incident report may be given. We will always give an incident report for an intentional act of physical aggression towards another student.

Our policies align with the Clawson Public Schools Bullying Policy, www.clawsonschools.org

Discipline Policies

It is most important to emphasize that the main goal of discipline is to assist the child in becoming a self-disciplined, mature adult who accepts responsibility for his/her actions. At each age a child is capable of assuming some measure of self-control and therefore is responsible for his/her own actions. The goal is to foster both self-control and self-discipline as is appropriate for each age and to support the children as they master these skills.

Disciplinary action will be taken if a child uses inappropriate language, does not listen to or follow directions from a teacher, does not respect the people and property around him/her, or uses violence to solve a problem.

If action is necessary it will be handled in a positive manner to encourage self-control, self-esteem, self-direction, and cooperation. The staff may use some or all of the following methods:

- The child will be stopped and spoken to concerning his/her actions and what is expected.
- Redirect a child to an appropriate activity.
- Separate the child from the activity (but not away from supervision) for an age-appropriate time-out.
- If necessary (when all other methods have failed), the child's parents may be called for a conference to discuss the difficulties and possible resolutions
- Inappropriate behavior will be brought to the attention of the parent who drops off or picks up the child. In some situations, the parents will be contacted by telephone either at home or at work.
- Severe behaviors will be recorded with an incident report. These behaviors include (but are not limited to): disruptive behaviors, physical aggression, destruction of property, failure to follow policies or procedures, chronic bullying behaviors and misuse of technology.
- If a child receives a third behavior-related incident report, the child will be suspended from Clawson Childcare Center for up to one week. During that time, the director, parents and supervisor will meet to determine the conditions for reinstatement.
- If the child is reinstated and receives a fourth incident report, the child will be withdrawn from the program.

Withdrawal

The following situations may result in immediate dismissal of your child from Clawson Childcare Center:

- Documented evidence of unsuccessful adjustment according to our Discipline Policy (see above).
- Bringing a weapon to school.
- Leaving the center without permission.
- Threatening another child/adult in a manner that could result in bodily harm.
- Behaviors endangering themselves or others.
- Intentionally physically harming another student or staff member.
- Possession or distribution of inappropriate (violent or sexual) materials.

Parent and Staff communication

Parents are always welcome and are invited to participate whenever and however possible.

Please remember to check the parent's information table on a regular basis.

A weekly newsletter will be emailed from your child's lead teacher. This newsletter will give details on upcoming activities, daily schedule, class rules, and basic activities.
